

## ATTACHMENT #2

### Housing Element Policies 1.3.6. , 1.3.7., and 1.3.8.

#### Policy 1.3.6.:

To insure that future development provides some degree of affordable housing units and that these units are evenly distributed throughout the community and to prevent negative impacts associated with geographic overconcentration, the City and County shall require the following for residential developments: the construction of affordable on-site housing units or off-site housing units within the same census tract or other location as approved by elected officials.

The percentage of affordable units required to be built by the developer shall be established by ordinance and shall be consistent with the following: the most recent housing information available from the Shimberg Center for Affordable Housing and the latest estimates of area family income published annually by the federal Housing and Urban Development Department, or the best available data, as determined by the Planning Department.

The option of contributing fees to an applicable affordable housing program in lieu of construction of an affordable unit shall be available only for small and medium size developments. This fee shall be established by ordinance and shall be based upon a percentage of the difference between the average selling price of the units sold and the established maximum sales price affordable to a low income family. The fee shall apply to each required affordable unit not built. The thresholds for small, medium and large residential developments will be established by ordinance.

In order to accomplish equitable distribution of affordable housing, this policy shall apply only to developments located within census tracts where the median family income is higher than the median family income for Leon County. Census tracts located in the Southern Strategy Boundary where the median family income is higher than the median family income for Leon County shall be exempted from this policy. Maps of the census tracts affected by this policy are located at the end of the Housing Element Goals, Objectives, and Policies.

For the purposes of this policy, two or more developments shall be aggregated and considered as one development, if they are no more than 1/4 mile apart and any two of the following criteria are met:

- a. There is a common interest in two or more developments;
- b. The developments will undergo improvements within the same five year period;
- c. A master plan exists submitted to a governmental body addressing all developments;
- d. All developments share some infrastructure or amenities;
- e. A common advertising scheme addresses all development.

**Policy 1.3.7.:**

By 1999, adopt an ordinance specifying a methodology and process to ensure the implementation of the developer-provided affordable housing contribution specified in Policy 1.2.4. This ordinance shall specify all applicable implementation details, including, but not limited to: eligible housing recipient qualifications and applicable restrictions; exemptions as stated in Policy 1.2.4 to affordable housing contribution requirements (if applicable); the periodic monitoring, review, and revision (as necessary) of Policy 1.2.4 and its implementation; enforcement provisions; and, for fee revenues provided through the implementation of Policy 1.2.4., the agency or agencies responsible for collection, management, and application of all such fee revenues including any criteria for the application of revenues.

**Policy 1.3.8.:**

Notwithstanding the exceptions provided in Housing Policy 1.3.6, all Target Planning Areas, (TPAs), Critical Planning Areas (CPAs) and Developments of Regional Impact (DRIs) shall be required to address the provision of affordable housing. The Land Development Regulations (LDRs) shall provide criteria and procedures to implement this policy.
